1. GREEN SPACE

Green Space for the purposes of this Plan has been listed as either Public Open Spaces (which are spaces in the Parish with provision for recreation grounds for children and teenagers, outdoor sports facilities and informal recreation areas in accordance with TVBC's Local Plan Policy LHW1, or Local Green Space (LGS).

The Local Green Space (LGS) designation is a method for providing special protection against development for areas of particular importance and benefit to the local community and which exhibit some or all of the following qualities:

- Beauty
- Historic significance
- Recreational value
- Tranquillity
- Richness of wildlife
- Local in character

The Community's Furzedown Road Allotments are typically a feature of Public Open Space but, as they are not owned by the Council, are a key LGS in this Neighbourhood Development Plan.

The Local Green Spaces (LGS) below have been determined by identifying areas within the Parish that potentially meet the criteria set out within the Neighbourhood Development Plan and verifying their suitability against the guidelines set out in the document:

"Test Valley Borough Council - Neighbourhood Development Plans Identifying Areas of Green Space - December 2016" which is reproduced in the following chapter.

3. POTENTIAL AREAS OF GREEN SPACE

The following locations were identified as possible areas of local green space which have been assessed to determine potential sites for further assessment against the criteria of:

- Beauty;
- Historic significance;
- Recreational value;
- Tranquillity;
- Richness of wildlife

4. ASSESSMENT OF SUITABILITY

The following potential locations (i.e. those exhibiting positive assessment in section 3 above) were further assessed in line with the designation tree in section 2 in order to determine the appropriate areas of local green space.

Some of the questions contained within the designation tree can be viewed as subjective particularly

1. Is the site reasonably close to the community it serves? – This has been interpreted as the potential area being within five minutes' walk from the centre of the community it serves.
2. Is the area of particular value to the local community? – This has been interpreted to mean the wider community it serves i.e. that the majority of residents will either pass by or use the area rather than a section of community.

Ref No	Location	Is the site allocated for development in the Local or Neighbourhood Plan?	Has planning permission for development been granted at this site?	Is the site reasonably close to the community it serves?	Is the site of particular value to the local community?	Is the site an extensive tract of land?
